

## ANTILLA LANDS AMMUNITION AT TAMPICO TO-DAY

U. S. Takes No Step to Keep War Supplies From Rebels' Hands.

MEDIATORS STILL WAIT ON CARRANZA

Conference Again at Standstill Pending His Reply.

SAYS HUERTA ENVOYS ARE TO JOIN CABINET

Mexico City Paper Hints at Rabasa as Provisional President.

The Ward liner Antilla, with 3,000,000 rounds of ammunition for the rebels, is due at Tampico to-day.

Secretary Daniels said last night that no steps have been taken to interfere with the landing of the Antilla's cargo.

The mediation conference at Niagara Falls is again at a standstill pending the receipt of Gen. Carranza's reply to the note of the mediators.

A despatch from Torreon said that no reply will be made by the "First Chief" until he learns the full plans of the A. B. C. diplomats.

The Constitutionalist Junta at Washington has been in communication again with Carranza, however, and expects to receive his reply to-day.

Gen. Tellez, with 5,000 Federals at Guaymas, is believed to be ready to make a dash on Hermosillo in view of the disruption of the rebel forces there caused by the clash between Gen. Maytorena and the military element.

### WILL LAND ARMS TO-DAY.

No Interference With the Antilla at Tampico Expected.

WASHINGTON, June 10.—There was hardly any doubt in official circles to-night that the arms on the Ward liner Antilla now en route for Tampico will be landed there to-morrow without opposition from the United States. Secretary Daniels said that no orders have been sent to Admiral Mayo to hold up the arms, and that the instructions to keep the port of Tampico open for all commerce are still in force.

As there is no expectation of resistance from other sources, the Federal gunboats having returned to Puerto Mexico, no obstacle apparently remains to the landing of the arms and ammunition for the rebels. The officers of the Ward Line have said that they have not been approached by the Government to prevent the landing of the cargo and that they will do nothing unless such representations are made. There was no indication here to-day that the Administration will communicate with the steamship company. Everything tended to confirm the impression that this Government is satisfied to see the Constitutionalist get this shipment of war munitions.

The belief here is that State Department officials have been told that a stoppage of these arms would probably destroy all chances of bringing Carranza into the mediation conference.

There is no doubt, however, that every effort is to be made to prevent further shipments from this country. Secretary Bryan insisted to-day that no arms or ammunition will for the present be shipped to Mexico from United States ports. He declared that a general order to this effect was issued shortly after the Antilla sailed. In fact, according to Mr. Bryan, the order was issued before the Ward liner was cleared from New York, but through a misunderstanding it was not enforced.

Secretary Bryan's insistence that his order has been in effect since June 1 is remarkable. The officials of other departments of the Government have denied that such an order was being enforced. They had, in fact, declined until yesterday to enforce it because they believed that legal grounds were lacking without a formal proclamation by the President. When the State Department came up yesterday the matter was laid before the cabinet and it was only after serious deliberation that the decision was reached to enforce the order without a proclamation by the President.

The Constitutionalist agents here to-night said that the war supplies on the Antilla are to be landed when the liner touches at Tampico to-morrow.

Secretary Bryan denied a statement attributed to the manager of the Remington Arms-Union Metallic Cartridge Company, to the effect that he called Secretary Bryan on the long distance telephone as late as last Tuesday and informed him of the nature of the plans of the cargo. Secretary Bryan, it was said, made no objection at that time to the shipment, although, according to his own statement to-day, his embargo order was then in effect.

Secretary Bryan denied that he had had any telephone communication, but acknowledged that the Remington manager had written to him on the subject. Mr. Bryan said this letter was received after the Antilla sailed.

### CARRANZA DELAYS REPLY.

Wants to Know Full Mediation Plan Before Deciding.

TORREON, June 10.—No definite action in regard to mediation will be taken by Gen. Venustiano Carranza until he has received from R. Zubaran Capmany, his representative at Washington, a detailed and complete report of the plans of the mediators. This was learned here to-day in despatches from Saltillo, which are regarded as practically official.

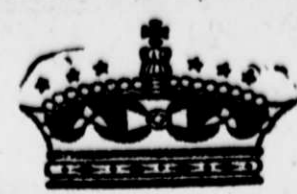

Carranza at Saltillo is in constant telegraphic communication with Zubaran Capmany at Washington.

### NATERA REPORTS TO VILLA.

Latter Recognized as Superior by Central Division Chief.

TORREON, June 10.—Gen. Panchito Villa who is here arranging for the Zacatecas campaign, may go to Saltillo before proceeding to the front. Reports of skirmishes in the Zacatecas district are being made to Gen. Villa by Gen. Natera, who is commander of the central division and should report only to Carranza.

Gen. Natera has reported several small skirmishes to Gen. Villa and evidently re-

## PEACE DELEGATES FOR NEW CABINET

Mexico City Paper Says Rabasa Is Slated to Be Foreign Minister.

EXODUS TO COAST GROWS

Another Trainload of Wealthy Men Leaves Huerta's Capital.

Special Cable Despatch to THE SUN.

MEXICO CITY, June 10.—Success, an evening paper, publishes a report that the Mexican delegates at the mediation conference at Niagara Falls are to enter a new cabinet, the portfolio of Foreign Affairs to be held by Emilio Rabasa, that of Communications by Luis Elguero and that of Agriculture by Agustin Rodriguez with Gen. Refugio Velasco as Minister of War.

By assuming the office of Foreign Minister Senor Rabasa would, in the event of the resignation of President Huerta, assume the Presidency, pending an election.

The selection of Gen. Velasco, the defender of Torreon, is not considered very likely. That office is held by Gen. Aureliano Blanquet, second strongest man of the Administration, who announced yesterday that he would consider it unpropitious for him to resign at this time.

Railroad communication is improved, and crude petroleum for the locomotives is now coming regularly from Minatitlan. Word that the United States will stop further shipment of arms to Mexico gives satisfaction here. Senor Esteve Ruiz, Minister of Foreign Affairs, said to-night that this action will dispel all rumors that the mediation conference at Niagara Falls has been abandoned. The Minister said that everything is progressing favorably.

Reports of a victory over the rebels in Morelos are confirmed by Gen. Caraveo. This also disposes of a report that Caraveo had been killed. According to the message the rout of the Zapatistas was complete. The rebel loss is said to be 1,000. Major Medina Barron pursued the remnants and caught up with them between Ojuelas and Calera. He was killed, but his command killed about 300 fleeing rebels.

President Huerta has appointed Garcia Galindo Chief Justice of the Supreme Court. This is the first nomination under the new law.

The capital eagerly awaits definite news about the Antilla and her cargo. It is considered highly important for the success of the mediation agreement that the rebels be prevented from obtaining the additional war supplies which will enable them to push their campaign toward the south.

### BURWELL'S DEATH CONFIRMED.

Bryan Has News Which Is Expected to Cause a Stir.

WASHINGTON, June 10.—Information reached Washington to-night absolutely confirming the death of Weston Burwell, a personal friend of Secretary Daniels, who was shot in a boat on a lake near Tampico several weeks ago. Federal soldiers were responsible for Burwell's death. They called to him to stop the boat. He refused and was shot dead.

It is understood that the details were received to-day by Mr. Bryan. Beyond admitting that he has absolute assurance that Burwell is dead Bryan made no comment. It was said on good authority that when the atrocious details of the American's death are made known it will cause a stir in this country.

### BATTLESHIPS TO COME HOME.

Four Vessels Now at Vera Cruz to Be Relieved.

WASHINGTON, June 10.—The battleships Utah, New Hampshire, Michigan and Nebraska, now at Vera Cruz, will shortly be relieved. The ships will proceed to their home ports for overhauling and repair. Their places will be taken by the battleships Delaware, Rhode Island and Kansas.

The Utah will undergo overhauling for three months. The Michigan will be overhauled for three months at Philadelphia, leaving Vera Cruz June 20.

The Nebraska will go into dry dock at Boston and the New Hampshire at Norfolk.

Aaron Levy's Auto Hits Man.

The automobile of Aaron J. Levy, driven by his chauffeur, Samuel Goldstein, struck Frank Weinstein, 24 years old, a driver of 99 Seventh street, last night at Third street and Avenue B. Weinstein was taken to Bellevue with a broken collarbone and internal injuries. No arrests were made.

### "FIRST CHIEF" HAS NOTE.

Washington Junta Expects His Reply To-day.

WASHINGTON, June 10.—Members of the Constitutionalist Junta here finally established communication with Gen. Carranza to-day. The First Chief made it clear that he had received the mediators' note of a week or so ago and was considering it. His agents here are still in the dark, however, as to when they will have a reply, but they expect the formal note to-morrow.

The note will go from Washington in the name of Rafael Zubaran Capmany, Carranza's Minister of the Interior, who has been in Washington in his interests for several weeks and with whom the mediators have been in correspondence. The Constitutionalist are still confident that Carranza's reply will result in his admission to the mediation conferences on his own terms.

Something Else For You To Think About.

Every mail is bringing requests for fresh air relief in behalf of the dwellers of the crowded tenement districts who cannot help themselves.

Physicians, hospitals and dispensaries are interceding for the desperate sick.

School teachers, settlements and churches are pleading the cause of runaway school children, overworked shop girls and little mothers.

Nurses and those fighting infant mortality are appealing for the "little bundles of human misery," as one characterized the puny child in her charge.

FULTON CURTIS, Chairman, Finance Committee.

## SAY HUERTA ENVOYS WILL BOW TO REBELS

Niagara Falls Hears Delegates Favor Constitutionalist as President.

PARLEYS AT STANDSTILL

Mediators Still Wait for the Reply of Carranza to Their Note.

By a Staff Correspondent of THE SUN.

NIAGARA FALLS, Ont., June 10.—Once again the mediation proceedings are at a complete standstill. The Carranza note in reply to the mediators' message has not arrived and the proceedings are held up by this delay.

None of the Mexican delegates would consent to-night to discuss the delay in the arrival of Carranza's reply. All declared that they had no information regarding the plans of the rebel leader. It was reported here to-night, however, that the Huerta delegates had agreed to favor a Constitutionalist candidate for the provisional Presidency of Mexico. It was said that all three representatives realize that the sympathies of the majority of the Mexican people are in favor of the rebels and that for this reason a Carranza representative alone would be able to restore peace.

The mediators conferred to-day for a short while with the representatives of Gen. Huerta, but not even an informal "conversation" was held with Justice Lamar and Frederick W. Lehmann, the American delegates.

The three mediators received assurances yesterday from the American delegates that the Carranza note would arrive to-day and for that reason consented to delay the publication of the messages exchanged with the Constitutionalist leader. It was stated here yesterday that Washington had been notified by the Constitutionalist Junta in the capital that Carranza's note was on its way. Private messages received here from men connected with the rebellion in Washington state, however, that no direct communication from Gen. Carranza has been received for the last forty-eight hours.

Meanwhile the three South American envoys are considering the new plan which was submitted to them three days ago by the American delegates. It is known that the main object of this scheme is to bring Carranza into the conference and it therefore follows that every discussion now centers around the rebel chief. The mediators and the delegates are amused at the persistent reports of discussion at the conference of issues such as the Mexican agrarian question, the payment of an indemnity to the United States and others not less important. It has even been reported that serious disagreements had occurred on several of these points during the past two days. As a matter of fact not one of these questions has been mentioned by any of the informal conversations held since last week.

The Carranza incident alone is holding up the proceedings. Not until it has been settled or definitely discarded will the discussion of the Mexican problem itself be continued.

Much interest was displayed on all sides here to-day at the announcement printed exclusively in THE SUN that a movement was on foot in Mexico City to urge the candidacy of Emilio Rabasa to succeed Huerta, together with the statement from the head of the Mexican delegation himself that he would not accept this honor.

To further inquiries to-day Senor Rabasa reiterated his assertion made yesterday that under no circumstances would he consent to accept even the provisional Presidency of Mexico. He said that he would not permit any one to suspect his motives in coming here by sanctioning the movement in Mexico City.

No news had been received here at a late hour to-night regarding the shipment of arms and munitions of war aboard the steamer Antilla. Great anxiety was expressed by members of the Mexican delegation regarding the attitude of the United States Government in the matter. Senor Rabasa was still hopeful that the Ward liner would not be permitted to land her cargo at Tampico. The news that a cargo of 45,000 rounds of ammunition intended for the rebels was held up at Galveston by the United States authorities aroused much favorable comment.

## FEDERALS PLAN DASH \$2,000,000 ANNEX ON DISRUPTED ENEMY FOR HOTEL M'ALPIN

Gen. Tellez With 5,000 Men at Guaymas Keeps Close Watch on Sonora Clash.

MAY ATTACK HERMOSILLO

Main Rebel Army on the West Coast Is Divided Over Large Territory.

NOGALES, ARIZ., June 10.—Gen. Joaquin Tellez, commanding 5,000 Federals at Guaymas, is watching regarding the factional strife centering around Hermosillo. It is believed he is contemplating a body blow at the Constitutionalist stronghold. With the 13th battalion disarmed and disbanded by 1,000 Yaguis, who came to the rescue of Gov. Maytorena, the rebel military force around the Sonora capital has been disrupted. The Indians care nothing for either Federals or Constitutionalist. Their only interest seems to be in the recovery of their former holdings in the rich Yaqui Valley. It is asserted that the Indians would make little or no resistance were Gen. Tellez to attempt the capture of the State of Sonora.

A relatively small rebel force is surrounding Guaymas. Gen. Oregon's main army, which some months ago was battered at the Sonora port, is now divided between Mazatlan, Sinaloa and Tepic. Military observers are inclined to believe that Gen. Tellez with a well equipped Federal army will crush the Constitutionalist forces in Sonora before Oregon's army can be brought back from the south. Carranza has revoked the commission of Col. Elias Calles, formerly military governor of Sonora, as head of the military opposition to Gov. Maytorena. Advice state that Carranza offered Calles a commission provided he would join Carranza in the campaign against Guadalupe. Calles is said to have at first refused the offer and later to have declared he would think it over a few days.

Having apparently made up his mind to join Oregon, Calles left to-day with 200 men for Hermosillo, whence it is claimed that he had no information regarding the plans of the rebel leader. It was reported here to-night, however, that the Huerta delegates had agreed to favor a Constitutionalist candidate for the provisional Presidency of Mexico. It was said that all three representatives realize that the sympathies of the majority of the Mexican people are in favor of the rebels and that for this reason a Carranza representative alone would be able to restore peace.

Two Plots of Land Acquired for Addition in West Thirty-fourth Street.

TO GIVE 200 MORE ROOMS

Builders Wanted Land Two Years Ago, but Have Just Closed Deal.

Structural inconveniences are to be rectified and lack of room remedied at Hotel McAlpin in Broadway. From Thirty-third to Thirty-fourth street, by an addition on the Thirty-fourth street side, to cost, with the land, about \$2,000,000. Negotiations were completed by the hotel interests yesterday for acquiring the property at 46 and 48 West Thirty-fourth street from the Floyd estate as a site for the addition, which will be put up as soon as plans can be completed.

When the hotel was erected about two years ago, its owners, the Greeley Square Hotel Company, tried to buy the property which it was held was considered exorbitant. It was needed, however, to square out the building and to make it as complete as the hotel owners wanted it. Yesterday's deal was arranged through William Cruikshank's Sons, who obtained something like \$500,000 for the two lots on Thirty-fourth street.

It is the plan of the hotel owners to erect an addition which will be like the main building in architectural style. When completed it will show no difference from the present structure. The addition will be 50 feet wide, and on the first floor will provide street entrances to dining rooms without passing through the lobby, a present inconvenience, which the proprietors have been unable to overcome. The floors above will be given in part to small private dining rooms, halls for dancing and entertainments, and to suites of rooms for patrons who desire larger apartments than the hotel now affords. The top floor will have an extension of the present baths.

In height and accommodations the McAlpin is now the largest hotel in the city. With the addition it will have 260 more sleeping rooms, and the total amount invested in the building and land will be increased from about \$15,000,000 to about \$17,000,000. L. M. Boomer, of the firm of Merry & Boomer, proprietors, said yesterday that the building of the addition will in no way interfere with the service in the hotel. The work will all be done outside of the present building, and when ready, the intervening wall will be removed.

Gen. Carranza has issued orders to all garrisons in Sonora to avoid any anti-Maytorena demonstrations and promptly suppress any disorders. Mexican agents declare that while Maytorena is playing with dynamite he will be kept pacified until Huerta is overthrown and the Constitutionalist government can give more attention to the troublesome Sonora problem.

HUERTA'S GUNBOATS BACK.

Are Again at Puerto Mexico Watched by U. S. Vessels.

By DUDLEY HARMON.

Special Correspondent of THE SUN With Admiral Rodgers' Fleet.

VERA CRUZ, June 10.—Admiral Badger received a report to-day that the Mexican gunboats had arrived at Puerto Mexico from Tampico. They were closely followed by United States warships. The Mexican ships anchored well inside the breakwater and the American vessels took up their vigil outside.

All the battleships except the Wyoming, New York, Connecticut and Mississippi went to sea this morning to take up the maneuvers delayed by the Tampico incident.
